

External links for Skin Tears

Here are some external links to specific documents produced together/ or by our partner associations and industry peers.

Wounds International 2020:

[Best Practice Recommendations for holistic strategies to promote and maintain skin integrity](#)

ISTAP convened a group of experts from Europe, North America, South America, Asia, Africa and Australia, who met in November 2017 to provide internationally recognised recommendations for the prevention and management of skin tears, with updated definitions and terminology. This document should provide HCPs with the information and resources they need to assess, classify, treat (and prevent) skin tears in practice with confidence.

Wounds Canada 2017:

[Foundations of Best Practice recommendations for the prevention and management of Skin Tears](#)

This paper offers a practical, easy-to-follow guide that incorporates the best available evidence. It outlines a process, or series of consecutive steps, that supports patient-centred care.
